

# My first document

gendloop\*

July 2024

You have now added a title, author and date to your first L<sup>A</sup>T<sub>E</sub>X document  
Hello gendloop, this is your first document. This is a simple example, with  
no extra parameters or packages included.

Bold: **Bold** Italics: *Italics* Underline: Underline

Some of the greatest *discoveries* in science were made by accident

*Some of the greatest discoveries in science were made by accident*

**Some of the greatest *discoveries* in science were made by accident**

\*gg

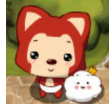

Figure 1: A nice picture

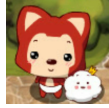

Figure 2: A nice picture 2

As you can see in figure 1, the function grows near the origin. This example is on page 2.

(a) Caption1

(b) Caption2

Figure 3: Caption for this figure with two images

```
\begin{wrapfigure}[lineheight]{position}{width}
...
\end{wrapfigure}
```

The `position` parameter has eight possible values:

<code>r</code>	<code>R</code>	right side of the text
<code>l</code>	<code>L</code>	left side of the text
<code>i</code>	<code>I</code>	inside edge—near the binding (in a <i>twoside</i> document)
<code>o</code>	<code>O</code>	outside edge—far from the binding
